Skater knowledge: A player's (shared) created content becomes part of the online team's content collection. Owners can single content out as representing the team, making it viewable to any online player on any team. Leaving a team removes those assets from the team lists, though it is still available to members who already downloaded it.

Select JOIN A TEAM to see a list of online teams who are currently recruiting and what their current needs are. Apply to any team that seems to fit your style or skill set.
